EDUCATION

2024 - PRESENT

KARPAGAM ACADEMY OF HIGHER EDUCATION

- Master of Science Computer Science
- Expected Graduation 2026

2019 - 2023

KENYA METHODIST UNIVERSITY

- Bachelor of Business Information Technology
- GPA: 3.3 / 4.0

TECHNICAL SKILLS

- Networking & Protocols
- Operating Systems & System Administration
- Programming & Scripting
- Security Tools & Platforms
- Web & Application Security
- Cryptography
- Incident Detection & Response
- Secure Software Development

SOFT SKILLS

- Teamwork
- Effective Communication
- Critical Thinking & Problem Solving
- Adaptability
- Continuous Learning

LANGUAGES

- English: Fluent
- Kiswahili: Fluent

PROFILE SUMMARY

Aspiring cybersecurity professional currently pursuing a Master's in Computer Science, with a strong foundation in secure software development and a growing expertise in threat detection, vulnerability management, and secure system design. Passionate about protecting digital assets and infrastructure through proactive security measures, ethical hacking, and compliance-driven development. Seeking to contribute to a forward-thinking organization where I can apply my technical skills and problem-solving mindset to strengthen cyber defenses and drive innovation in security operations.

TRAINING AND CERTIFICATION

POWER LEARN PROJECT

FEB 2024 - MAY 2024

Software Development

- Certificate of Achievement awarded by Power Learn Project; Successfully completed a 16 - week program in software Development covering Python, Web Technologies, Database Management, Dart With Flutter and Soft Skills, with specialization in Python Django

IBM

Cybersecurity Fundamentals

Nov 2025

- Certificate and Badge in Cybersecurity Fundamentals issued by IBM. Successfully completed the standards and requirements and obtained skills in cybersecurity on the offense and defense.

WORK EXPERIENCE

SKILLHIGH

Aug 2025 - Nov 2025

Cybersecurity Industrial Training and Internship

- Certified 12-week Industrial Training and Internship Program that equipped me with in-depth knowledge and hands-on experience in; Network Security, Ethical Hacking, Risk Assessment, Encryption Techniques, Firewalls & Intrusion Detection and Real-Time Cyber Threats & Defense Simulations
